Powering Innovations in Separation Science

Top Five Reasons to Attend Pittcon

Low Registration Fee, High Return
For only \$130, you get unlimited, week-long access to all technical sessions and the exposition floor including all conference week amenities.

Discounted Fee (Through February 18, 2013): \$130
After February 18: \$260

Premier Exposition
Discover solutions to all your laboratory challenges from leading exhibitors from 30 countries. Get a first-hand look at cutting edge innovations used in separation science.

Education Experience
Pittcon offers a diverse technical program including more than 64 sessions relevant to separation science in applications such as bioanalytical, pharmaceutical, food science, forensics, genomics, homeland security, and chemical analysis.

Unique Networking Opportunities
The perfect venue to meet with colleagues from more than 90 countries to discuss issues related to separation science, solve problems, and interact with technical personnel.

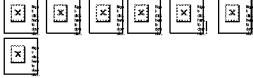

Professional Development
The 2013 Short Course program offers low cost, affordable skill-building training for laboratory professionals at all levels to enhance your current expertise or to get exposure in a new discipline. There are more than 100 courses offered including 27 that are relevant to topics in separation science. Courses range from beginner and intermediate, to advanced level in 1/2 day to 2-day sessions.

Visit www.pitcon.org to get complete details on all that this premier conference and exposition has to offer.

Download the Pittcon Mobile App

The Pittcon 2013 mobile app is available for free download to iOS and Android devices and will help you manage all aspects of the conference and exposition before, during, and after the event.
